

Before submitting your employment application with Lutheran Home at Concord Reserve, please read and know the following:

Tobacco-Free & Drug-Free Campus

Lutheran Home at Concord Reserve's policy is to promote good health among employees as well as provide a safe work environment. *Tobacco use is prohibited* on Lutheran Home at Concord Reserve's Campus, which includes all buildings, parking lots, cars and sidewalks.

Drug testing of Concord Reserve employees **IS REQUIRED** as part of the pre-employment process and may be required in the event of reasonable suspicion, accident/incidents, or at random.

Drug-Free Workplace Policy and Procedure

The following actions are STRICTLY FORBIDDEN and will result in IMMEDIATE TERMINATION:

1. Using alcohol or unauthorized drugs or other substances during the work day or bringing them onto the premises at any time.
2. Coming to work under the influence of either drugs or alcohol.
3. Possessing alcohol or drugs during the work day.

For health and safety-related reasons, anyone taking prescription drugs as medication for illness or control of a physical condition should inform his/her supervisor.

This policy describes **Lutheran Home's Drug-Free Workplace Policy**, and every employee is expected to read and understand it. Management is available to answer any questions you may have about this policy and how it works, the consequences for violating the Policy and where to go for help if you have a problem with alcohol or drugs.

Lutheran Home holds all employees accountable for substance abuse, but also supports getting help for employees. Employees who come forward voluntarily to identify that they have a substance problem will receive support and assistance. Concord Reserve reserves the right to terminate any employee who does not come forward with a substance abuse problem and then tests positive for drug or alcohol use (in violation of this Policy). At minimum, such an employee will be removed from the job and not be allowed to return to work without a negative return-to-duty test.

Testing will be used to detect problems and to allow Lutheran Home to take appropriate action to correct the situation. An employee's refusal to submit to a drug and/or alcohol test results in immediate termination. Employees who are asked to submit to a drug/alcohol test must take an immediate test with a sample given within one hour after the request.

Post-Offer, Pre-Employment Medical Examination and Drug Testing

Lutheran Home's employment procedures require all applicants undergo a post-offer, pre-employment drug test that is conducted by a contractor designed by Lutheran Home. Any offer of employment is dependent upon satisfactory completion of this test (negative test result).

Reasonable Suspicion Testing

Reasonable suspicion testing will occur when a supervisor/manager has reason to suspect that an employee and/or employees may be in violation of this policy. This includes employee/employees being off on their narcotic count. This may also include employees from the previous two shifts. The suspicion will be documented in writing.

Under no circumstances will individuals, sent for reasonable suspicion testing, be permitted to drive themselves to or from the testing site. Transportation will be provided. Ordinarily, employees will not be permitted to return to work, after reasonable suspicion testing, until negative test results are returned. Employees will be compensated for lost time unless test results are positive for illegal drugs or alcohol.

Post-Accident Testing

Concord Reserve's drug policy complies with the State of Ohio's Bureau of Workers' Compensation's Drug Policy effective October 13, 2004. This means testing will occur when an employee has become injured on the job and needs to seek medical attention outside the workplace.

We consider an accident to be an unplanned, unexpected or unintended event that occurs on our property, during the conduct of our business, or during working hours, or which involves one of our motor vehicles or motor vehicles that are used in conducting Company business, or is within the scope of employment, and which results in any of the following:

1. A fatality of anyone involved in the accident.
2. Bodily injury to the employee and/or another person that requires off-site medical attention.
3. Significant property damages, as determined by Concord Reserve.

Any employee who may have contributed to the accident will be tested for drugs and/or alcohol use or both.

Urine specimen collection (for drugs) or breath/saliva/blood (for alcohol) is to occur as quickly as possible (one hour) after a need to test has been determined. At no time will a urine specimen be collected after 32 hours from the time of a work-related incident. Breath or saliva alcohol testing will be performed as quickly as possible (one hour) after a need to test has been determined. If an employee is considered to have caused or contributed to a work-related accident, regardless of injury, it is a condition of employment that the employee grants Concord Reserve the right to request appropriate specimens (breath, urine and/or blood) for the purpose of conducting alcohol and/or drug testing. Further, all employees grant Concord Reserve access to any and all other medical information that may be relevant in conducting a complete and thorough investigation of the work-related accident including a full medical report from the examining physician(s) or other health care providers.

Management reserves the right to determine who may have caused or contributed to a work-related accident and may choose not to test after minor accidents if there is no violation of a safety or work rule, minor damage and/or injuries and no reasonable suspicion.

Follow-up Testing After Return to Duty from Assessment or Treatment

This test occurs when an existing employee has previously tested positive and the decision is made **not** to terminate employment under a "second/last chance" agreement. A negative return to duty test is required before the worker will be allowed to return to work. If the employee fails this test, this will lead to termination of employment. Once an employee passes the drug and/or alcohol test and returns to work, management may choose to do additional unannounced tests for as long as deemed necessary. Any employee with a second positive test result will be terminated.

Additional Information

An employee who adulterates, attempts to adulterate or substitutes a specimen or otherwise manipulates the testing process, will be terminated. A refusal to produce/provide a specimen

is considered a positive test unless there is verifiable medical reason that the specimen could not be produced.

All records of drug/alcohol testing will be stored separately and apart from the employee's general personnel documents. Access is limited to designated Company officials. The information contained in these files shall be utilized only to properly administer this Policy and to provide information to certifying agencies for review as required by law. Designated Company officials that shall have access to these records are charged with the responsibility of maintaining confidentiality. Any breach of confidentiality may result in termination of employment. Employees tested under this Policy have the right to review and/or receive a copy of their own test results.

Dress Code

It is expected that employees will maintain high standards of neatness and appropriate apparel, thereby lending dignity to Lutheran Home at Concord Reserve as well as to themselves.

For safety purposes, open toed shoes are only permitted for office personnel and no more than a moderate heel (2 inches) is recommended. Flip Flops/Thongs are not permitted. Socks or hose must be worn in all areas of direct patient care and food service.

Clean and professional looking clothes should be worn in all areas. Skirt and dress lengths must be appropriate for business. Capris cannot be worn by staff providing direct patient care or food service employees.
